

18 January 1955

MEMORANDUM FOR: Mr. Wisner, DD/P
Mr. [] C/OPS

25X1

In connection with the present situation of our late representative in [] I would appreciate a report on the circumstances of his resignation, and anything we have with regard to his present employment and his relations to our people in []

25X1

In the future kindly advise me, as they may occur, of any information with regard to the resignation of important officials or threats of resignation. I think we should also consider, as discussed at the morning meeting, the possibility of inserting into our arrangements with those who work abroad for us, an agreement that they are not without our consent to take up residence in, or accept employment in the post where they have worked for us within _____ years after their resignation. I recognize that this is technically not enforceable but might afford a basis for approaching the State Department to withhold passports or other facilities in connection with the foreign residence of the individuals in question.
